Residual sugar: Less than 0.5 g/L

Allergy advice: Contains sulfites

Stored under the right conditions, the wine will hold its potential for the next: 2-3 years

AVAILABLE FORMATS

150 cl and 75 cl

TASTING NOTES

Pale golden colour, bright. Intense and fresh on the nose, rich in citrus aromas (lemon) and tropical fruit aromas (passion fruit). On the palate, it is fine and juicy, with a very pleasant smooth and silky texture.

SERVING SUGGESTIONS

Perfect as an aperitif, it is ideal for accompanying seafood and fresh or fried fish. It pairs very well with green salads and citrus dressings. It is recommended to serve between 8°-10°C.

LEGACY

Crafted in our winery in Villafranca del Duero, from a selection of our Verdejo plots close to the River Duero, which offer greater aromatic intensity and freshness.

VERDEJO

TERROIR

Soil

The estate is located in the Duero depression, in an area where gentle Eocene slopes alternate with more modern Quaternary materials, creating an undulating and smooth landscape. In this area, deep soils with good drainage and medium textures develop, with a significant presence of sands.

Weather conditions

In 2024, temperatures began close to historical values, with significant frosts on the 23rd and 24th of April, but they increased markedly mid-year. During the summer, there were no nights with high nocturnal temperatures, temperatures decreased in September and ended with values above normal. Regarding precipitation, the first quarter saw abundant rainfall, but during the growing cycle, there was a 25% decrease. October was a rainy month, although the year concluded with a dry period. The anomalies in precipitation highlighted a contrast between wet and dry periods.

Precipitation

Annual total (current vintage): 326.3 mm

Temperature

Annual average (current vintage): 13.2°C
