

Title of the project: "New winemaking strategies for the sustainable production management of large areas and to increase in the competitiveness of wineries in the international market"

Acronym: "VINYSOST 2014"

VINYSOST is a Project that is co-financed by the European Union and the CDTI - Centre for Industrial Technological Development - with ERDF funds, through the Multi-regional Operational Programme for Smart Growth, within the framework of the CIEN Programme. Its main objective is to improve the quality and competitiveness of Spanish wines by sustainably managing production in large vineyards, thus responding to the major challenges of the Spanish wine sector.
